TRAKATAG E150

**For Lower Cost,
Higher Quality Tags**

The Trakatag E150 marker allows you to make, and mark, your tags on site, at a reduced cost.

Automatic Tag Production System

As it is computer controlled the **Trakatag E150** easily marks:

- Individual or Batch sequential Numbers
- Date of Manufacture including time & shift
- Variable data such as customer name is also available.

Embossed tags are available for galvanising, paint and powdercoat applications.

*The **NICHOL Automatic Tag Marker** is perfect for applications when variable information is required on large quantities of tags.*

For your Permanent Identification Solution call us on **1800 778 808**
